Profile

AI Tech Lead specializing in video analytics and computer vision, delivering production-grade AI systems from discovery through deployment. Experienced in architecting scalable on-prem and cloud solutions with strengths in MLOps/GitOps automation, edge AI integrations, and robust data pipelines. Client-facing leader who translates requirements into reliable, high-impact deployments while mentoring engineering teams.

Professional Experience

AI Tech Lead – ResoluteAI Software, Bengaluru (Nov 2025 – Present)

AI Engineer – ResoluteAI Software, Bengaluru (Nov 2024 – Sept 2025)

Associate ML Engineer – ResoluteAI Software, Bengaluru (Sept 2022 – Nov 2024)

Deep Learning Engineer Intern – ResoluteAI Software, Bengaluru (Oct 2021 – Sept 2022)

Education

Silicon Institute of Technology – B.Tech in Computer Science and Engineering

Certifications & Courses

- IBM Applied DevOps Engineering (Coursera)
- Generative Adversarial Networks (GANs), DeepLearning.AI-
- IBM AI Engineering Professional Certificate

Projects

- GenAI Led Multidomain Query Platform
- Automated Fabric Shrinkage Detection App
- GenAI Led personalized Medical Health Bot
- Machine Health Analytics & Prediction
- Telecom Industry Permit-to-work Automation
- Machine Health Analytics & Prediction

Technical Skills

Programming & Backend: Python, REST APIs, Microservices

Computer Vision & GenAI: Video Analytics, Detection & Segmentation, ML, DL, GenAI, PyTorch, TensorFlow, HuggingFace, LangChain

DevOps & MLOps: Docker, CI/CD, GitOps, Azure DevOps, Model Versioning, Azure, GCP, Edge AI (Jetson)

Leadership & Product: Tech & Project Leadership AI Product Architecture Requirement Analysis Team Mentoring & Intern Training Cross-functional Collaboration
